Wisconsin Social Worker

New! Live Webinars

An Exciting New Way to Attend Live CE Training!

NASW-WI is proud to introduce a new line of Continuing Education Webinars. Webinars allow you to view a live presentation via the Internet, while listening to the audio via a toll-free telephone connection.

Far more than just passive learning, webinars let you interact with the instructor and view the comments of your fellow social workers.

Our 2012 lineup of webinars offer the highest-rated topics and presenters from our latest State Conference .

Webinars are conveniently scheduled from Noon to 1 PM CST, so you don't need to take time from your busy schedule!

Pre-Licensure Clinical Supervision For Practitioners in Youth-Serving Agencies

This workshop will focus on clinical supervision for practitioners seeking Wisconsin licensure. The primary focus will be on supervision within a multi-systemic framework, most applicable to practitioners in youth-serving agencies, who treat children, adolescents and families. The workshop will cover legal and professional requirements and guidelines, responsibilities of the supervisor and supervisee, and the parallel multi-systemic, active, directive framework for treatment and supervision.

Carol Faynik, LCSW has a private practice at Family Therapy Center of Madison. She has lectured at the UW School of Social Work, and Clinical Assistant Professor with the Department of Counseling Psychology.

Mindfulness Cultivating Inner Stability in the Midst of Uncertainty and Change

Although impermanence is a given in

life, things seem especially turbulent and unstable these days. It's easy to feel overwhelmed and anxious about all that is beyond our control. Mindfulness is an ancient method for developing inner steadiness and balance with the challenges and uncertainty in our lives, enabling us to respond with greater wisdom, compassion and skill. In this workshop we'll explore the principles and methods for cultivating mindfulness, and practice applying it to challenges in our lives. You'll leave with specific, simple and potent practices to deepen mindfulness in your personal and professional life.

Mare Chapman, MA, of Lives Unlimited in Madison, WI., has been practicing holistic psychotherapy and mindfulness for over 25 years. She has studied with Jack Kornfield, Pema Chodron, Christina Feldman, Stephen Levine, Thich Nhat Hanh, Jon Kabat-Zinn, and Sharon Salzberg.

Managing Lack of Insight In Individuals with Serious Mental Illness

Often people with Serious Mental Illness do not perceive that they have a problem. This differs from denial, where one knows there is a problem but refuses to admit it; rather the person has a “lack of insight” and believe that they are fully functioning.

This contributes to resistance to treatment. This session will examine the LEAP method proposed by Xaxier Amador that focuses on collaboration with the client by Listening, Empathizing, Agreeing and Partnering.

Christina Newhill, MSW, LCSW, PhD chairs the Direct Practice Concentration in the MSW program, is Coordinator for the Mental Health Certificate, and teaches in the MSW and Ph.D. programs at the University of Pittsburgh. In 2008, she received the Chancellor’s Distinguished Teaching Award, Pitt’s highest teaching honor.

Bringing the War Home The Impact of the War in Iraq and Afghanistan Military Service members, Veterans and Families

The wars in Iraq and Afghanistan have now lasted longer than the Vietnam War and 2.2 million men and women troops have deployed since October of 2002. Over 40,000 have been wounded in action and many have injuries not apparent at first, such as post traumatic stress disorder, traumatic brain injury, and military sexual trauma. Members of the U.S. military are facing a number of unprecedented challenges including the stress and risks of multiple combat tours, traumatic injuries caused by rocket propelled grenades and improvised explosive devices. Military service members also face obstacles when reintegrating back into their civilian lives. These circumstances provide the opportunity for social workers to intervene to facilitate the psychosocial wellbeing of returning service members and their families.

Gail Gunter Hunt, MSW, ACSW, LCSW has been a social worker at the Madison VA Hospital since 1982 and is currently the Women Veterans Program Manager

at the VA. In 2006, Gail was selected as the NASW Wisconsin Distinguished Social Worker. Gail will co-present this webinar with three of her colleagues: **Kurt Brunner, MSW, LCSW**, Social Work Case Manager at the Madison VA Hospital; **Stephanie Daugherty-Dennis, MSW**, former social work intern at the Madison VA Hospital in the Women Veterans Health Program; and **Jennifer Jaqua, MSW, LICSW** Caregiver Support Coordinator at the Madison VA Hospital.

Wisconsin Health Care Advance Directive Options Empowering Clients to Take Charge Prior to Incapacity

A detailed explanation of various advanced directives, including Health Care Power of Attorney, Living Will and Final Arrangements Advance Directive. You’ll understand the differences between the documents, including pros and cons of choosing to complete or not complete each. Presents research detailing the efficacy and usefulness of each document, explaining what each is meant to achieve and the limitations of each. This multi-media presentation is packed with plenty of case examples.

Kristin Scheeler, MSSW, CAPSW has been working professionally with older adults since 2003.

Child Abuse and Neglect Effects on the Brain and a Call for Action

Child abuse and neglect can cause severe neurobiological damages to a child's developing brain. The consequences can be higher rates of SMI, substance abuse disorders and violent criminal behavior. This session will examine the record and suggests ways for social workers to advocate for more effective legal protections.

David Cooperson, MSW, MA, LCSW, retired in 2005 after 32 years as a social worker, supervisor, and administrator in the Philadelphia Dept of Human Services.

Tracking Trends A Clinician's Guide to Substance Use and Integrated Treatment Service Delivery

This workshop will provide an overview of recent trends in substance use locally and nationally and will discuss best practices for providing services to individuals with co-occurring

disorders. The workshop will also include a discussion of Wisconsin Recovery Communities Organization efforts to integrate grassroots advocacy and peer support into recovery from CoD.

Amy Mosher-Garvey, LCSW, CSAC, ICS, SAP, is a dual-diagnosis therapist in Madison, WI. Amy is a co-owner of OPEN DOOR Center for Change, LLC and is adjunct faculty at the UW-Madison School of Social Work. She is the Chair of the Dane County Chemical Dependencies Consortium and a member of multiple delegations and committees for the improvement of integrated service delivery in Dane County.

High Functioning Autism and Asperger's Syndrome The Dilemma of the Autism Spectrum

In this very brief presentation we will look at the difficulty in teasing out what is Asperger's, what is High Functioning Autism, and what is Non-Verbal Learning Disability. Are they really that different or are they more similar than different? What about the DSM V's plan to lump them all together under the title of "Autism Spectrum Disorder's? We will also spend some time discussing rating scales and how to perform a comprehensive evaluation.

William J. Shryer, DCSW, LCSW has been in private practice since 1981 specializing in Autistic Spectrum Disorders, Mood Disorders, and the Anxiety Spectrum in children, adults and their families. He manages three behavioral clinics with a staff of MD's, Counselors, Clinical Psychologists, and Special Education teachers.

Grief and Loss Numbing the Pain Through Substance Abuse

Individuals who have endured a severe loss need to work through the stages of grief outlined by Elizabeth Kubler Ross: denial, anger, bargaining, depression and acceptance. Some people avoid this process through substance abuse as a way of numbing the pain. This workshop looks at the anticipated rise in substance abuse among elders as the "baby boom" generation ages.

Jessica Holton, MSW, LCSW, LCAS, is a Licensed Clinical Social Worker and a Licensed Clinical Addictions Specialist. She is President Elect (2011 - 2012) for NASW-NC, and will serve as the chapter's President from 2012 to 2014.

Legal Aspects of Caregiving

Those over the age of 85 currently represent the fastest growing segment of the United States population.

"So much great information. . . I could have had a whole day with Julie Short!"

Session Attendee

There are over 13 million Americans with long term care needs in the U.S., and more than half of those receiving long term care are over age 65. In nearly one in four U.S. households,

2012 Lunchtime Teleconferences!

there is someone caring for an elderly relative or friend. This presentation will address the most common legal issues caregivers and recipients of caregiving will encounter, including Powers of Attorney; Guardianship; Estate Planning, and Public Benefits. It will provide practical tips about how to conduct conversations with family members about these sensitive and emotional issues and will provide advice how best to utilize the services of the legal profession in planning and establishing effective preventive legal measures.

Julie A. Short is the Director of the Elder Law Center at the Coalition of Wisconsin Aging Groups (CWAG). Prior to joining CWAG she spent sixteen years in private practice which emphasized elder law and estate planning. Julie is also a member of the Board of Directors for the Elder Law Section of the Wisconsin State Bar Association.

Serving the Needs of LGBTQ Community During the Lifespan

The workshop will discuss the role of the Social Worker in micro, macro, and mezzo levels, in working with clients in the LGBTQ community. Learners will be able to identify the goals of practice, stressors and needs

of the community, roles as a practitioner, and community resource building. Focus will coordinate changes of LGBTQ individuals, families, and the elderly throughout the lifespan, utilizing a comprehensive approach; including assessment of youth, individual practice with families, and advocacy for the elderly.

Dana L. Strohm, MSW, is a Social Worker at a regional hospital located in Wausau, WI, as well as an Adjunct Faculty member at the University of Wisconsin-Whitewater and Marian University. He has specialized in providing undergraduate students with a special studies education in LGBTQ issues over the lifespan; offering the first course to focus specifically on LGBTQ issues in the practice of Social Work at the University of Wisconsin-Whitewater.

Personal Safety Issues for Social Workers

Social workers can face dangerous situations in the workplace. Those who work in child protective services, in schools, in mental health hospitals or institutions or in clinics may all deal with elevated risk. This course will cover various options and strategies for protecting yourself during your work. Topics will include safety at the office, transporting peo-

ple, and making home visits. Time for question and answer will be included.

Officer Frank Chandler is a Crime Prevention Officer with the Madison Police Department.

Middle School Parents Reporting School Bullying What Practitioners Must Know to Guide Effectively

Bullying is a confusing process for parents to interpret. When middle school parents discover their youth is being victimized, they provide coping strategies to their youth. These strategies often have negative outcomes. By using interpretive phenomenology to understand parents lived experiences, this presentation will address parents' struggle in decision-making to report bullying, what occurs when parents do report to school officials, and the aftermath. When parents are unsuccessful in their reporting, they too express feeling victimized. Practitioners will learn practical steps that guide parents to leverage their youth's safety from school officials.

James Brown, MSW, PhD, has served 13 years as a school social worker, both as an intermediate district special education social worker and as an at-risk social worker. He was part of a research team at the Indiana University School of Medicine for three years before receiving a PhD in 2010.

NASW WI Ethics & Boundaries Workshops

Social Work Ethics and Boundaries in a Virtual World

This ethics and boundaries workshop has been designed to address the relationships between social work practice and the rapidly changing professional and personal boundaries as a result of increased interaction through social media and technology in both rural and urban practice settings. The framework for this interactive workshop has been designed to include application of case samples presented by workshop participants that provide examples of both ethical safeguards and dilemmas that have developed as a result of practitioner interactions with social media and technology in practice and personal settings.

La Vonne Cornell-Swanson is the Director of the Office of Professional and Instructional Development (OPID) for the University of Wisconsin System. Dr. Cornell-Swanson has a Master's degree in Social Work from the University of Oklahoma, a PhD in Cultural and Linguistic Anthropology from the University of Wisconsin-Milwaukee and she is licensed by the State of Wisconsin as an Independent Clinical Social Worker. Dr. Cornell-Swanson has been actively engaged in the Scholar-

Ethics and Boundaries for Clinical Social Workers.

Through lecture, discussion and contemplation, participants will have the opportunity to consider issues germane to clinical practitioners who treat clients who have experienced trauma and to examine and

strengthen their understanding of the importance of self care as an ethical imperative.

Pamela Phillips Olson, LCSW, is a Licensed Clinical Social Worker, with over 35 years of experience. She has worked in community mental health centers, an inner-city high school, as the director of an early intervention program and as leader of a statewide parent-professional work group. She has expertise in working with children, trauma survivors, as well as individuals with learning differences, employment issues, marital concerns and bereavement. Currently she is working in private practice where she serves people through the life span. She has presented workshops on a variety of topics to community agencies such as the Helen Bader School of Social Welfare Continuing Education Program, Victim Witness Unit of the DA's Office, Dane County Human Services, Waisman Center Community Training Programs, Hospicecare, Inc. Madison, WI State EAPA, NASW and other professional organizations.

Advanced Ethics and Boundaries: Professional Ethics and Technology

Technology is both a help and a hindrance in social work practice. Development is so rapid that ethical management races to catch up. We will examine these technologies and the ethical implications of their use, and will apply a critical thinking model to ethical decision making in actual scenarios.

Nicholas P. Smiar, Ph.D., ACSW, CISW, is Professor Emeritus of Social Work, at the University of Wisconsin - Eau Claire. His MSW specialization was group work and casework, with a focus on psychiatric social work, and his Ph.D. specialization was social welfare and public policy. He is also a graduate of the Divinity School of The University of

“Nick engages the group and makes it less like a lecture and more like a seminar”

Session Attendee

Chicago. Prior to his twenty-three years in social work education, Dr. Smiar worked in residential treatment, child welfare, and psychiatric hospital settings, and was executive director of a multi-service child and

family welfare agency in Illinois for five years. He is a past board member of the Wisconsin Chapter of NASW and was recently elected President Elect of the same Board. He is also currently President of the Board for Bolton Refuge House (Eau Claire) and a board member for the Professional Association of Treatment Homes (PATH, Inc.) and for Anu Family Services. He works in Germany and South Africa on a regular basis, doing instruction in risk management and safety enhancement for persons who work with volatile and potentially assaultive clients. Dr. Smiar has been doing ethics workshops for the past eleven years.

A Piece of the Trauma Puzzle

Trauma of a Life-Threatening Illness

The stressor criterion for Post Traumatic Stress Disorder (PTSD) in the DSM-IV includes life-threatening illnesses as precipitating traumatic events. Recent research confirms the presence of PTSD in individuals and family members with life-threatening illnesses, such as cancer. This session will review the research on PTSD and cancer and present clinical implications for medical social workers.

Linda Weitz, MS, MSW

Audio Online Seminar: 1 CEH

The Mind Body Connection Harnessing The Power Of Mood To Improve Health

There is an evolving literature that is proving something that mental health professionals have known for years, that mental health has a huge effect on our physical well-being. Over the course of this 90 minute workshop we will by didactic and case based learning, explore this two way "mind-body connection", the evidence behind this connection and finally discuss ways that we can help our patients obtain healthier and more satisfying lives by helping to improve their mood.

Jerry Halverson, MD

Audio Online Seminar: 1.25 CEH

Peace Power Strategies

The goal of the Peace Power strategy is the construction of cultures of non-violent power with youth and adults in youth-serving organizations, schools, and community settings. The strategy, deeply grounded in the science of behavior, is designed to be extensively adaptable to local cul-

tures, resources, and values. In this hands-on session, Dr. Mattaini will provide examples of Peace Power projects implemented with youth in several states, present a menu of Peace Power tools and activities, and work with participants to elaborate possible applications of the strategy in their own settings.

Mark A Mattaini, DSW, ACSW
Audio Online Seminar: 1.5 CEH

Trauma and Grief With No End

Families Dealing with Serious Mental Illness

For over twenty years research findings have been consistent and clear, educating family members about the serious mental illness of their loved one makes a huge difference, both to the families and their ill relative. The disgrace is that only 2% of agencies in the U.S. are providing this education! This workshop covers what families go through; looks at the abuses and uses of confidentiality; and then goes through the content and process of providing psycho education for families.

Mona Wasow, MSSW

Audio Online Seminar: 3 CEH

Suicide Prevention and Intervention

This workshop will discuss the process of suicide risk assessment, and some practical suggestions about how to decrease risk. You will learn how to 1) have a better understanding of how to conduct an assessment for suicide risk, 2) understand how to assess risk, 3) understand steps that can decrease suicide risk in the crisis situation.
